Movie Media Kit

Jane "Goldie" Winn published her life story, ***Rainbow in the Night: A Journey of Redemption***, in December 2019 (AVAILABLE ON AMAZON).

In June 2023, her life story was made into a narrative documentary movie: ***Rainbow in the Night***. The movie was nominated for awards at several film festivals.

The release of the movie is very timely as it peers deep into one of the most contentious and emotionally charged issues of our time: abortion. The heart of the documentary lies in its use of storytelling to take the issue of abortion from philosophical debate to practical reality while providing a beautiful view of God's redeeming grace and love found in Jesus the Messiah.

Goldie tells her life story without a script. It is raw, emotional, and transparent as she shares about her traumatic second-term abortion that took place in the midst of a chaotic hippie lifestyle in 1970. The devastation of the abortion drove Goldie into darkness and despair, but she finally surrendered her painful past to the Lord.

Goldie's true redemption as a Jewish woman is coming to believe that Jesus "Yeshua" is the Jewish Messiah! Goldie's desire is to share her story whenever possible to bring encouragement to those who may have lost hope and are in need of healing from a painful past. Her compelling life story is very important for "such a time as this" (ref. Esther 4:14).
