Congregational leaders and other ministry leaders:

Some weeks ago, our congregation watched Goldie Winn's excellently produced film, *Rainbow in the Night*. She deals with the subject of abortion and related trauma with clarity and compassion. Everywhere this personal and timely message is shared, buried and unaddressed memories surface and are healed. The results are dramatic. I saw this up close at Beth Messiah Messianic Congregation in Cincinnati, Ohio.

I strongly recommend this film to every congregational leader. It is an invaluable ministry tool. Please feel free to contact me if you have any questions.

Shalom and blessings in the matchless name of Yeshua,

Letter of Recommendation From L'Chaim Messianic Congregation

As a Messianic Leader, I felt the need to show the movie "Rainbow in the Night" in place of the sermon in a Shabbat service because it would reach the most congregants than any other time.

I believe this should be a front-burner issue, and the heat should be turned up! It is not being talked about in the body of Believers nearly enough. There are many hurting people who have had past abortions and are suffering in silence. This movie gave people the opportunity to acknowledge the painful consequences after abortion, and many came forward to share their stories.

My wife and I made a decision to have an abortion in 1978 even though we were engaged to be married. It was horrific, and to this very day, it is our deepest regret. But to the glory of God, He redeemed our lives, and what the enemy intended for evil, God turned into a greater good (Genesis 50:20).

Our hope is that you will consider taking advantage of this blessed opportunity to show this movie in your congregation so that many others may begin or continue the healing process with past abortions. Hopefully, as Goldie shares her traumatic second-trimester abortion story in this movie, it will shed light on the very dark side of abortion and might prevent someone in your congregation from having an abortion.

Please feel free to contact us with any questions you may have as we are very passionate about this issue.

Shalom,

Pastor Bruce and Suzi Elman

To: Goldie Winn and the Rainbow Project

Re: Letter of recommendation

To all hurting hearts and minds,

I have known Goldie Winn for about 24 years, and have known her and her husband David to be a great blessing in service to our Lord.

We recently had Goldie minister to our congregation with her documentary *Rainbow in the night*, her story is a powerful positive testimony on God's love and the power to forgive and to heal. Many women were deeply touched by not only her Movie and additional insight, but the blessing of speaking with her in person and to also build on the movies blessings with reading her book.

It is not often we get to engage personally with such a powerful story, and its outcomes. I see the potential for ongoing healing in our community directly related to Goldie's willingness and thoughtfulness to tell this story in a film and in person. It is refreshing to see a story of compassion, healing, restoration and victory in these dark days. We look forward to hosting her again in the future.

Letter of Recommendation From Akron Shalom Ministries

The *Rainbow in the Night* movie provides an excellent firsthand account of how life's circumstances can effect the choices we make. Rejected and emotionally abused by her father, Goldie finds acceptance in the hippie community—at least for a season.

Eventually the hallucinatory drugs, free sex, an unwanted pregnancy, and a subsequent abortion leave her feeling empty and without hope. However, an unexpected encounter with the living God changed everything.

This movie details Goldie's journey, struggle, and search to find her purpose and identity. And that she did. No matter what circumstances you may find yourself in, this movie will give you hope that there is a God Who sees all, knows all, and can use everything for your good and for His honor and glory if you will put your trust in His loving arms. A must-see movie.

Eileen Fitzgerald, Ph.D.

Letter of Recommendation From Shalom Boca Messianic Synagogue

To Whom It May Concern:

On Sunday night, May 5, 2024, we sponsored a movie screening of *Rainbow in the Night*, Jane “Goldie” Winn’s story. It was a truly inspiring story of overcoming a difficult childhood, falling into a destructive lifestyle as a young adult, and culminating in the decision to have an abortion.

The real story though is about God’s love and His redemption, which she finds through the love of other believers. In the process, there is reconciliation with her family, freedom from the guilt and shame of her decision, and a life of serving others.

I highly recommend showing this movie. It is especially an encouragement for those that may have experienced the trauma of abortion and living with the guilt and shame of that decision.

Feel free to contact me if you have any questions.

Regards,

Rabbi Ira Brawer
